

Venue: Copenhagen
H.C. Andersen Castle Tivoli

CEOCOR

International Congress
& Technical Exhibition

21-24 May 2019

A warm welcome to Copenhagen

The organizing committee of CeoCor 2019 is looking forward to welcoming you to Copenhagen in the Spring of 2019, the season during which all is reborn, life returns to flowers, trees and shrubs, and Danes venture outdoors after a long winter to get fresh red cheeks and smile on their lips.

Similarly, each annual CeoCor congress brings with it new thoughts and findings in corrosion and cathodic protection as well as an exhibition showcasing new innovative products for the pipeline industry.

Located in the heart of Copenhagen, the beautiful 175 year old Tivoli garden is abundant with flowers, rides, restaurants and bars while the peacocks roam free in all their glory. We are convinced that Tivoli, is the ideal location to celebrate, learn and debate new findings and ideas presented at CeoCor 2019.

Venue

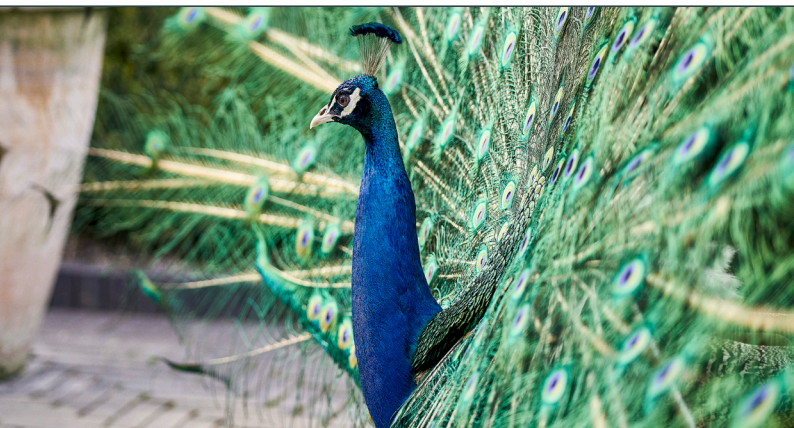

H.C. Andersen Castle (Tivoli)
H. C. Andersens Blvd. 22
1553 Copenhagen V
Tel: +45 3315 1001

Prices and registration

Delegates: €580.00 ea
Accompanying Persons €230.00 ea

Registration deadline end March 2019.
Spaces are limited.

17.30 - 18.30 General assembly

May 24

08.30 - 12.30 Working groups
12.30 - 13.30 Lunch

CeoCor Commission 1

Deals with the interaction between transported or stored water and metallic or cement based materials. Such interaction may lead to the deterioration of the materials themselves and/or deterioration in the qualities of the transported water

CeoCor Commission 2

Deals with external corrosion and cathodic protection against corrosion, mainly for water, oil and gas pipelines and relevant infrastructures. AC and DC stray currents and electrical interferences are in the field of competences of this Commission

Accompanying persons

There will be a full accompanying persons program with a balanced touch of cultural experiences, leisure, and shopping opportunities. While delegates are busy with technical discussions and presentations, we invite accompanying persons to experience the Danish design, gastronomy, culture and not least the Danish coziness (hygge) first hand. Like all delegates and exhibitors, accompanying persons have free access to the beautiful Tivoli garden.

Conference Hotel – The Square

We have reserved a limited number of rooms for the conference at preferential rates ONLY available through the organizers.

Single € 230.00 per night
Double € 260.00 per night
Superior Double € 270.00 per night

Contact us directly to secure your room.

About the The CeoCor2019 congress

CeoCor, founded in 1956, is an international scientific non-profit association dealing with corrosion and protection of pipes and pipeline systems. CeoCor brings together specialists from universities, research centers, institutes and companies within:

- Water, gas and oil distribution
- Waste water collection and treatment
- Pipe production and manufacture of equipment for cathodic protection systems

The congress consists of about 40 high level technical presentations, working group meetings, as well as a technical exhibition.

Exhibitions & sponsorships

Exhibitors are duly invited to showcase products and solutions for the corrosion and cathodic protection industry. The majestic foyer of the H.C. Andersen castle will provide the ideal conditions for the exhibitors and we will do our utmost to facilitate the best possible climate for the meeting between professionals and vendors.

Limited sponsorships still available
